I also want to get sick

Yesterday, my elder brother got sick. Dad told him to rest, not go to school. Mum cooked him some porridge. Grandma told him some stories to make him happy. I thought: I also want to get sick.

Today, I felt all over my body was feverish. Dad took my temperature, he said I can't go to school. I really am sick!

I'm lying on the bed. I can't eat the porridge Mum cooked for me. Stories told by my Grandma, do not make me feel better.

Reading with my classmates, playing games, is such a happy thing! I don't want to get sick!
